

**PROGRAM
DESCRIPTION**

Indian outreach services (IOS) assist Indian people with who require social, educational, psychological, physical, economic and/or cultural services to improve their quality of living.

IOW

Services are provided by Indian outreach workers (IOW)s who share or have knowledge of the values, traditions, customs, and language of the Indian community. This allows the IOW to be in a unique position of understanding the multi-faceted problems faced by Indian people. This cultural link promotes an acceptance of the suggested solutions due to the fact that they come from a client's perspective and a natural trusting relationship.
