**1. REFERENCE
EDITS MANUAL**

The Reference Edits Manual contains all of the error messages generated by CIS and ASSIST. The CIS and ASSIST error messages are listed in numeric order and identified as either CIS or ASSIST messages in the Subsections (left margin) of this manual. ASSIST messages are *italicized* to help distinguish them from CIS edits.

In many cases CIS and ASSIST have used the same edit numbers. These are listed together with the ASSIST edit coming first. Use Edit > Find/Change (or Ctrl + F) to quickly locate the edit you want. Type the edit number in the Find text area and click on the Find button.

Edits from Program Policy Reference Codes & Edits (PRC) and the ASSIST User Codes & Edits (AUC) will be available in online manuals for historical information only. You must use the Reference Edits Manual to look up edits. CIS Manual, Chapter 13 is now obsolete.

**2. RACE CODES

The Race code chart has been updated to add ASSIST code references.
