POLICY MANUAL  
ITEM 115**

The "Exception" regarding women receiving MA based on poverty level pregnant woman programs (on page 2) has been moved to the section labelled "Support Disqualification" (on page 3). Moving and rewording the "exception" is for clarification only. There is no change in policy. A woman who is pregnant and receiving MA on certain programs is exempt from support disqualifications during a pregnancy and for 2 months after a pregnancy ends. The Support Specialist determines cooperation. The FIS/ES determines if the disqualification should be applied.
