

Data Processing (DP) Direct Billing Certification Form

This certification is being made in reference to the attached IV-D equipment purchase request. Be advised that no *personal computer (PC)* or any other DP-related equipment costs for any _____ County department are included in any indirect cost allocation plan (CAP) or internal service fund (ISF) billing or other billed central service arrangement that is not an ISF that is allocated to or billed to the FOC/PA (other than a secondary distribution of a central service department); this practice is consistent with prior years' practices. If this practice changes in the future, we understand that adjustments to Cooperative Reimbursement Program (CRP) billings may be necessary.

Chief County Financial Officer
