-no impact-	XC	Excluded Child	N	N	N	N

¹ Generally, for FIP cases, every adult on the case signs the DHS-1171; for other programs, only the applicant signs. Minor parents sign either the DHS-1171 or another document that affirms the assignment of support.

² Assignment is subject to IV-D rules as described in Section 5.15, "Assignment of Support (Certification/Decertification)" of the *Michigan IV-D Child Support Manual*; this Y/N is a precondition.

³ Disqualified, Eligible, and Other Child eligibility determination group (EDG) participants will assign support if that participant has a parent relationship to another child on the case (i.e., the participant is a minor child whose own child is an eligible participant).

⁴ See footnote 3.

⁵ Only parent or non-parent caretakers on Supplemental Security Income (SSI) or who elect not to be part of the FIP group will be referred as Other Adult persons for FIP. CDC parents or non-parent caretakers may also be Other Adults.

⁶ See footnote 3.

⁷ 165% Test person codes are only used to qualify disabled persons for FAP EDGs when residing with others.
