

MiCSES Debt Types and CSES Account Types Conversion Table

This table lists each MiCSES debt type, the related CSES account(s), and the definition of the MiCSES debt type. In the last two columns, Y/N (yes/no) indicates whether the debt type is considered a MiCSES support debt type and is assignable in MiCSES. An “S” in the Assignable Debt Type column indicates debt types that are always paid to the state.

² For county-funded agency placement IV-D cases, the WF debt type is payable to the county for arrears that accrued before October 1, 2019. Ref: [Section 5.85, “Agency Placement – Financial,” of the Michigan IV-D Child Support Manual](#) for more information on assignment of support for county-funded placements.

³ For agency placement IV-D cases where support is redirected to an unlicensed provider who is receiving Family Independence Program (FIP) assistance through MDHHS, IV-D staff must manually move the monthly support obligation that was redirected to the provider to the IV-D case created from the IV-A referral. Once the support obligation is moved to that IV-D case, the unlicensed provider’s support is subject to assignment. Ref: Section 5.85 of the *Michigan IV-D Child Support Manual* for more information regarding unlicensed providers who receive FIP.
