¹ Ref: [Section 5.15, “Assignment of Support \(Certification/Decertification\),” of the Michigan IV-D Child Support Manual.](#)

² For county-funded agency placement IV-D cases, WF is always payable to the county and is not subject to assignment. For agency placement IV-D cases where support is redirected to an unlicensed provider who is receiving Family Independence Program (FIP) assistance through MDHHS, IV-D staff must manually move the monthly support obligation that was redirected to the provider to the IV-D case created from the IV-A referral. Once the support obligation is moved to that IV-D case, the unlicensed provider’s support is subject to assignment. Ref: [Section 5.85, “Agency Placement – Financial,” of the Michigan IV-D Child Support Manual](#) for more information regarding unlicensed providers who receive FIP.

Note: An “S” in the Assignable Debt Type column indicates debt types that are always paid to the state.

*Note: The debt types marked with asterisks at the bottom of the table are included in this list because a support collection may be distributed to an arrearage associated with the debt type. These debt types are obsolete and must not be used to create new obligations.
