DEFINITIONS

ePHI is the acronym for Electronic Protected Health Information. It is Protected Health Information that is transmitted or maintained in electronic form.

PHI is the acronym for Protected Health Information. It is information that can identify a person and contains health related data pertaining to that person.

Workforce Member means employees, volunteers and other persons whose conduct, in the performance of work for a covered entity, is under the direct control of such entity, whether or not they are paid by the covered entity. This includes full and part time employees, affiliates, associates, students, volunteers and staff from third party entities who provide service to the covered entity.

POLICY

It is the policy of MDHHS to maintain data integrity by incorporating the appropriate mechanisms where necessary, to ensure that those systems with data containing ePHI that have been labeled critical are authenticated and that ePHI is not altered or destroyed in any unauthorized manner.
