#### DEPARTMENT POLICY

# FAP Only

A food assistance worksheet must be completed at initial application, semi-annual, mid-certifications and at each redetermination for all approvals, denials and closures made based on income. In addition, the worksheet is used to document changes in assets (non-categorically eligible FAP groups), income and expenses, and to document supplemental benefits. The worksheet is not needed to document withdrawn requests or applications, but this must be documented somewhere within the case.

### Specialists must use the automated food assistance budget in Bridges to complete the required worksheet whenever possible.

Categorical eligible groups automatically meet the asset test for food assistance unless they have lottery or gambling winnings of \$4,250 or more; see <u>Bridges Eligibility Manual (BEM) 213, FAP</u> <u>Categorical Eligibility</u>.
